

How to Connect Your Devices to the School Wireless Network

A Guide for Senior School Pupils

This guide will help you connect your device to the school network. The school network is a unique network that allows you to go online and do online learning. To use your device at school, you need to connect it to the school network first.

You can use different kinds of devices. You may have a Windows laptop, a Mac laptop, iPhone, or an Android phone. They all have different methods of connecting to the school network. This guide will show you how to do each one.

Connect a Windows Laptop to the School Network

1. On your Windows laptop, go to the bottom right corner of the screen and click on the Wi-Fi icon marked with **1** in the below image.

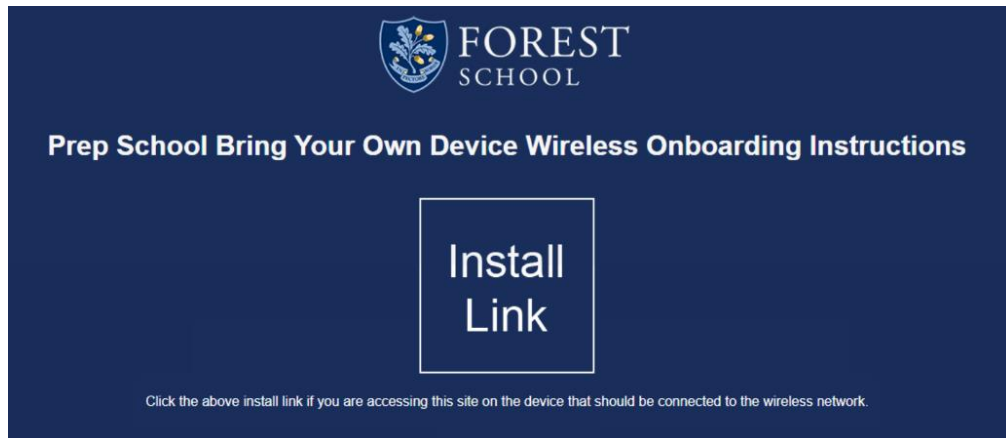

2. Look for the network called Onboarding marked with **2** in the above image. Click on it.
3. A “Forest School Wireless Onboarding Guide” website appear.

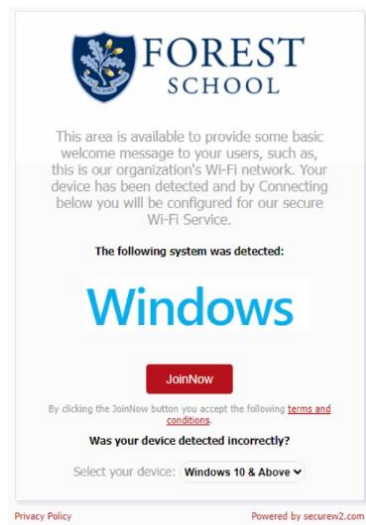

4. Select **Senior BYOD**.

5. Select **Install Link**.

6. A screen with a “Join Now” button will appear.

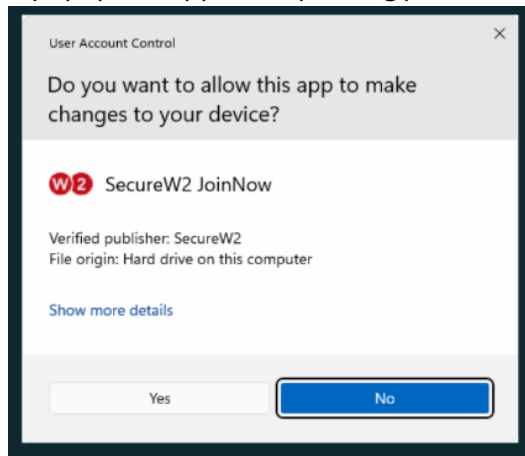

7. Select **Join Now**.

8. This will download a file to your download folder.

9. Select “Open File” from the browser Downloads folder.

10. A popup will appear requesting permission to run the SecureW2 JoinNow application.

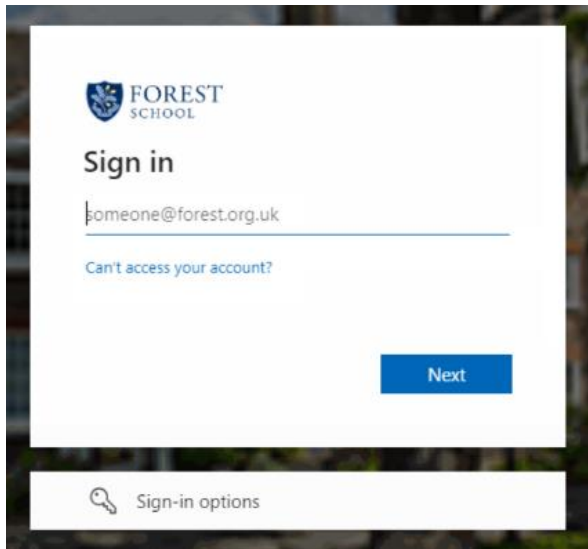

11. Select Yes.

12. The SecureW2 wizard will appear.

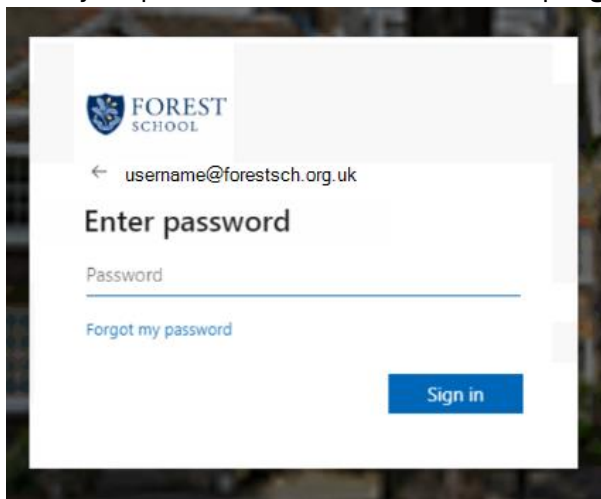

13. Select Next.

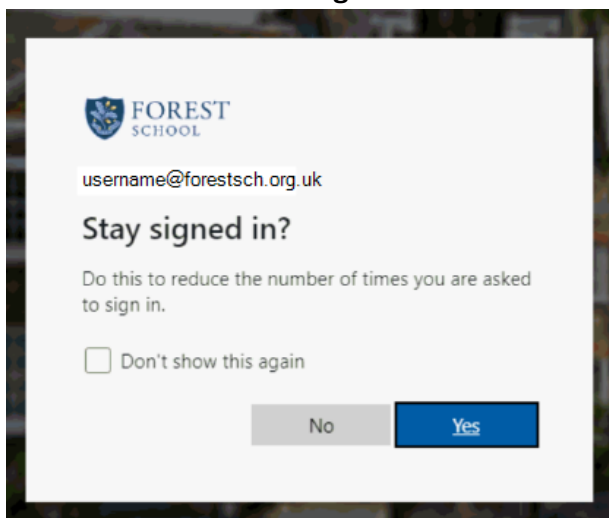

14. A screen will pop up asking you to enter your username. This is your Forest School email account that you use to log in to your school account. Tap **Next**.

A screenshot of the Forest School sign-in screen. At the top is the Forest School logo. Below it is the heading "Sign in". There is a text input field containing the email address "someone@forest.org.uk". Below the input field is a link that says "Can't access your account?". At the bottom right is a blue button labeled "Next". At the very bottom is a section titled "Sign-in options" with a magnifying glass icon.

15. Enter your password on the next screen. Tap **Sign In**.

A screenshot of the Forest School "Enter password" screen. At the top is the Forest School logo. Below it is a back arrow and the email address "username@forestscho.org.uk". The heading "Enter password" is centered. Below it is a text input field labeled "Password". Below the input field is a link that says "Forgot my password". At the bottom right is a blue button labeled "Sign in".

16. Select "**Don't show this again**" and select **Yes**.

A screenshot of the Forest School "Stay signed in?" screen. At the top is the Forest School logo. Below it is the email address "username@forestscho.org.uk". The heading "Stay signed in?" is centered. Below it is the text "Do this to reduce the number of times you are asked to sign in." Below this text is a checkbox followed by the text "Don't show this again". At the bottom are two buttons: a grey button labeled "No" and a blue button labeled "Yes".

17. The process will complete with a message saying Joined. This means you are connected to the school network.

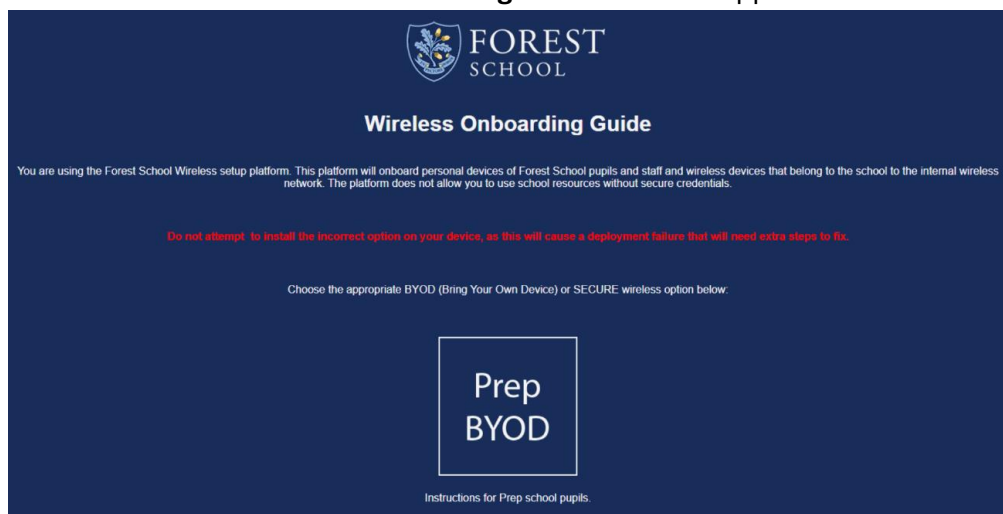

18. Click Done.
19. Congratulations, you have connected your Windows laptop to the school network. You can now use the internet and online learning on your Windows laptop.

Connect a Mac Laptop to the School Network

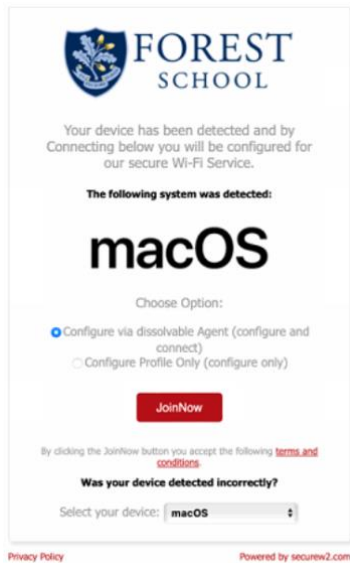

1. On your Mac laptop, go to the top right corner of the screen and click on the Wi-Fi icon.
2. Look for the network name that starts with **Onboarding**. Click on it.
3. A “**Forest School Wireless Onboarding Guide**” website appear.

4. Select **Staff BYOD**.
5. Select **Install Link**.

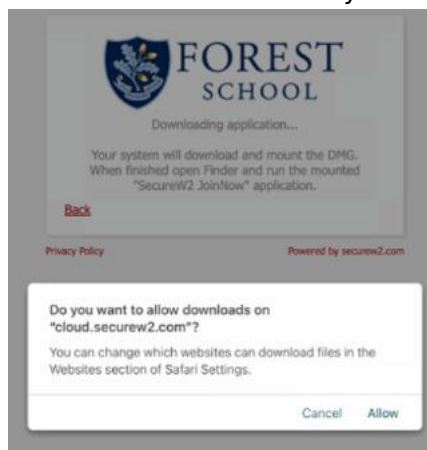

6. A screen with a “Join Now” button will appear.

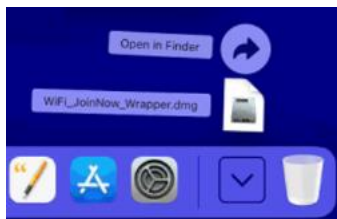

7. Select **Join Now**.

8. This will download a file to your download folder.

9. Select the Wifi_JoinNow_Wrapper.dmg file from Downloads folder.

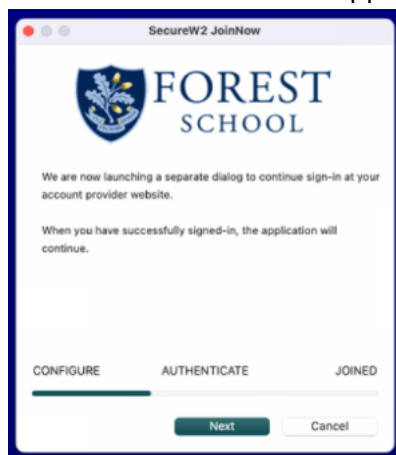

10. A popup will appear with the SecureW2 JoinNow application. Open the application.

11. Select **Open** on the next popup.

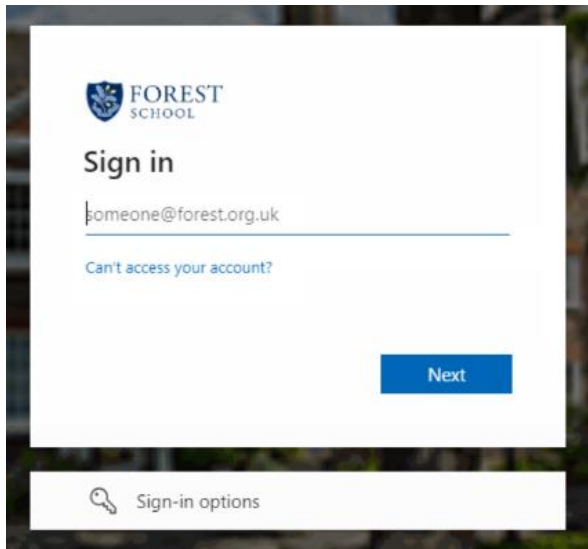

12. The SecureW2 wizard will appear. Select Next.

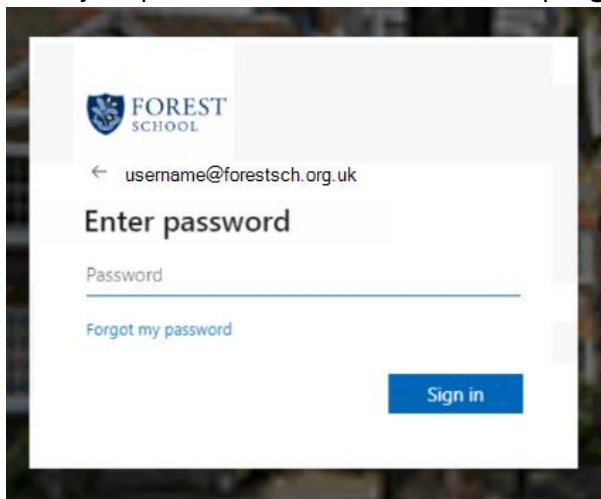

13. The security prompt will appear. Select OK.

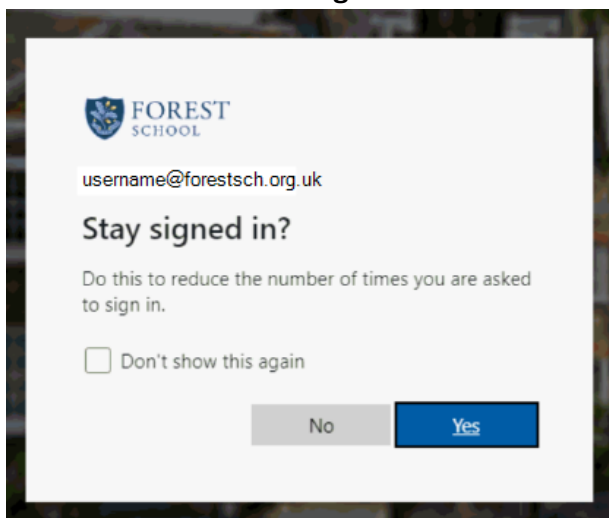

14. A screen will pop up asking you to enter your username. This is your Forest School email account that you use to log in to your school account. Tap **Next**.

11. Select “Don’t show this again” and select **Yes**.

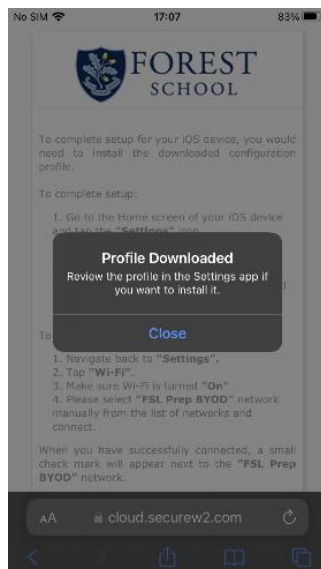

12. Select **JoinNow**.

13. A message will appear asking if you want to allow a configuration profile. Select **Allow**.

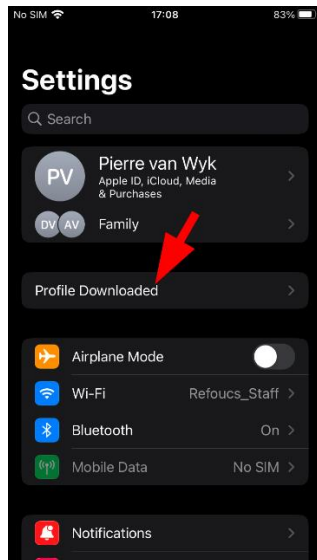

14. Select **Close** on the next message.

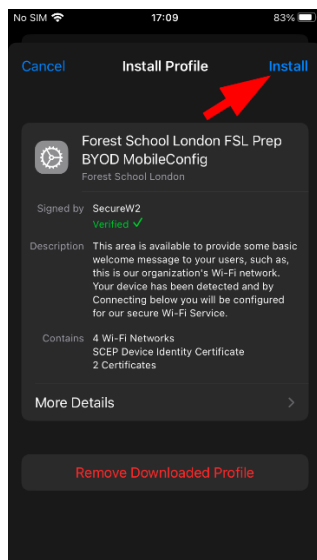

15. Go to your phone **Settings**.

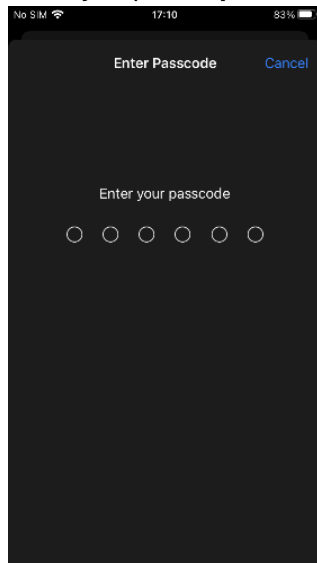

16. Select **Profile Downloaded**.

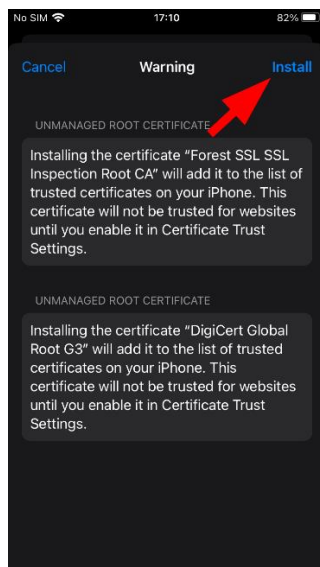

17. Select **Install**.

18. Enter your phone **passcode** if required.

19. Select **Install**.

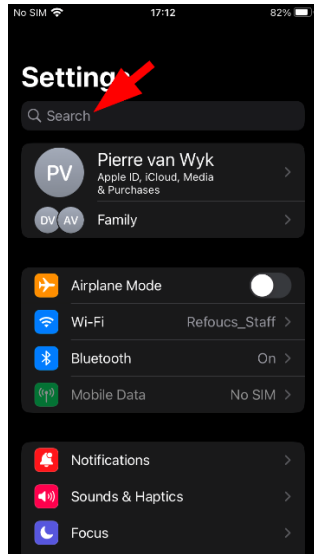

20. Select **Done**.

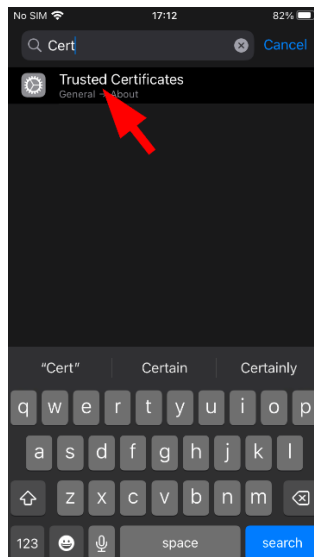

21. Go back to Settings.

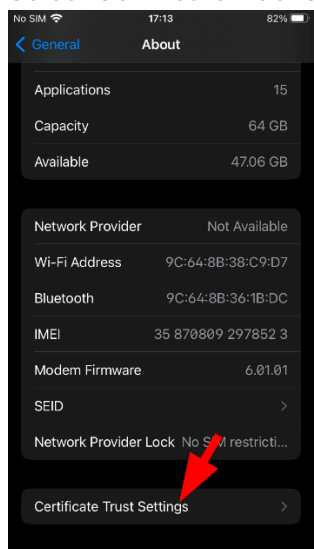

22. Search for “certificate”

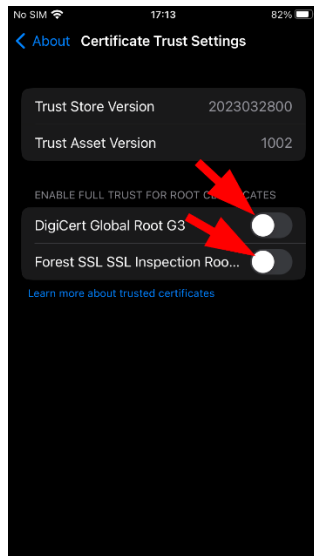

23. Select Trusted Certificates

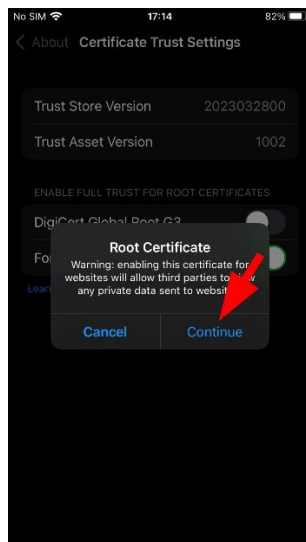

24. Select Certificate Trust Settings right at the bottom.

25. Enable the “Forest SSL SSL Inspection Root” certificate by enabling the slider.

26. Select Continue.

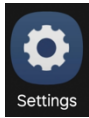

27. Congratulations, you have connected your iPhone to the school network. You can now use the internet and online learning on your iPhone.

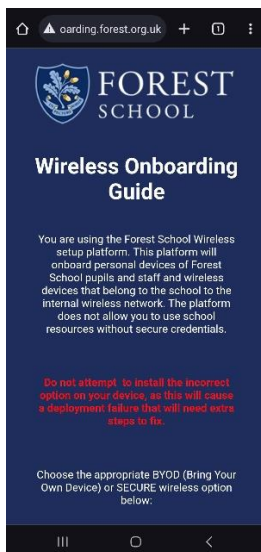

Connect an Android Phone to the School Network

1. On your Android phone, go to Settings.

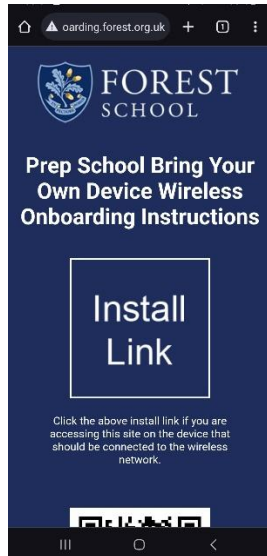

2. Tap on Connections.
3. Tap on Wi-Fi.
4. Look for the network called **Onboarding**. Tap on it to connect.
5. A “**Forest School Wireless Onboarding Guide**” website appear.

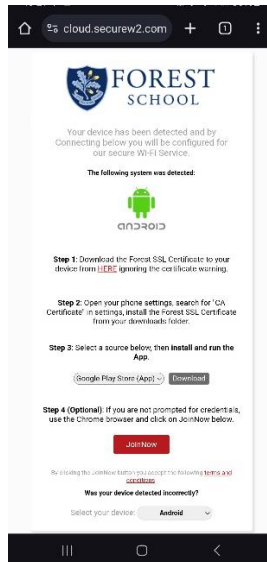

6. Scroll down and select **Senior BYOD**.

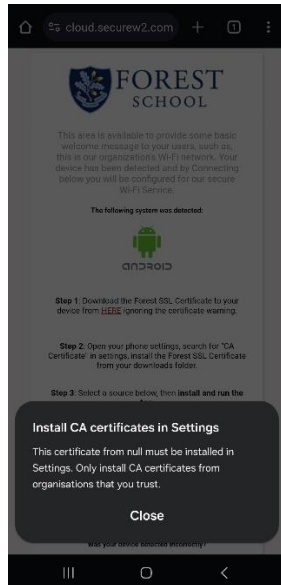

7. Select **Install Link**.

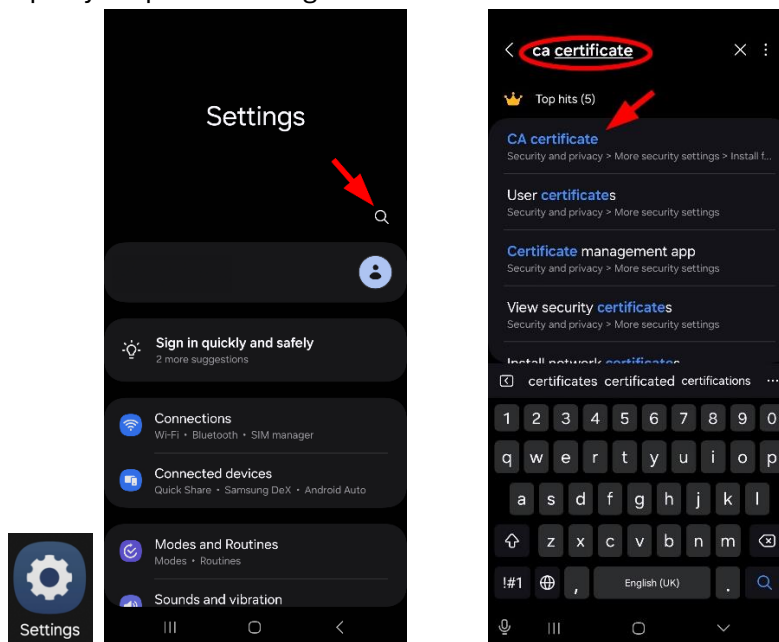

8. Click on the red **HERE** link to download a file on **Step 1**.

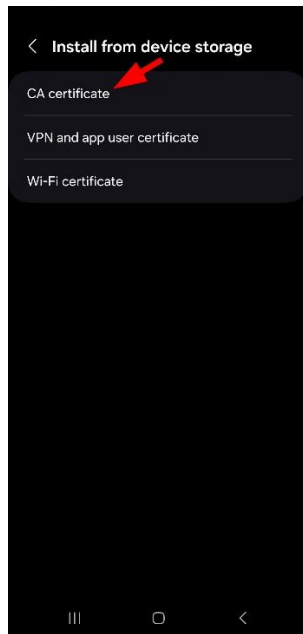

9. Click on Close.

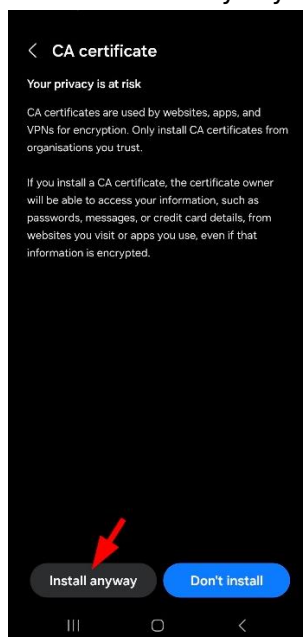

10. Open your phone settings then search for “CA Certificate” and click on it.

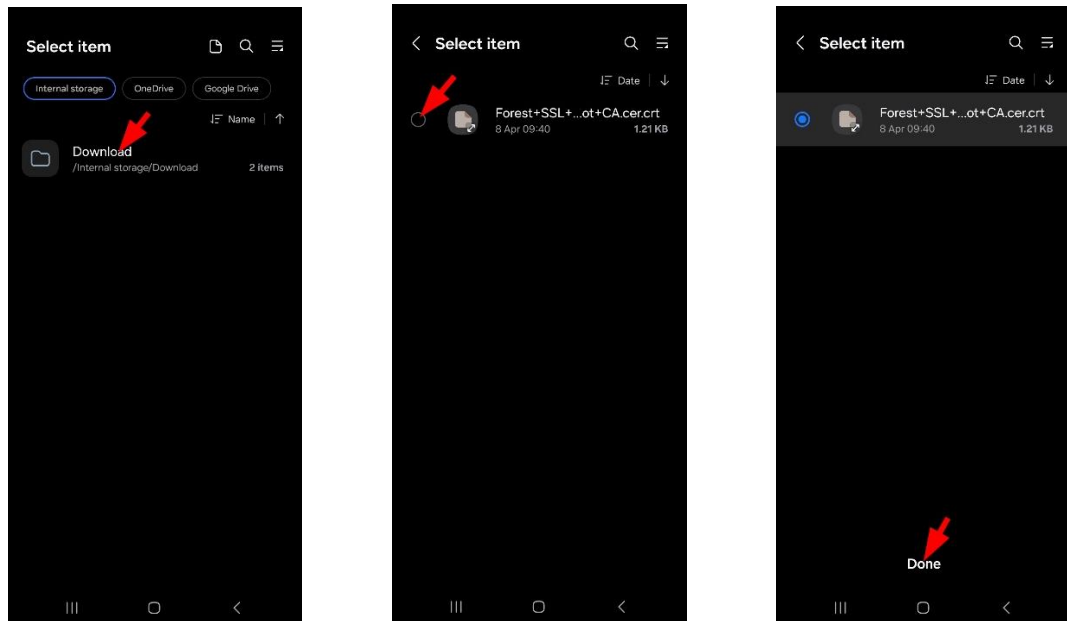

11. Select CA Certificate.

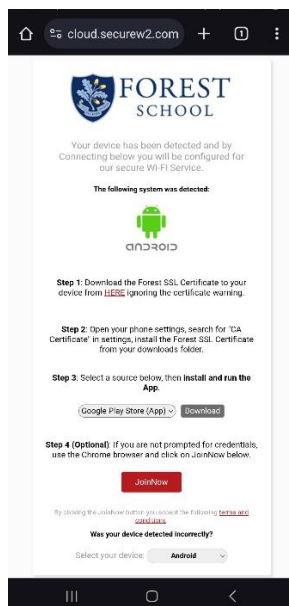

12. Select “Install anyway”

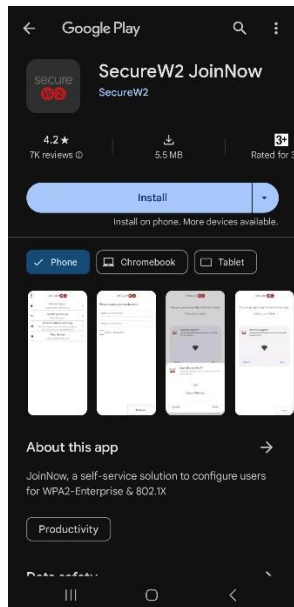

13. Open your Download folder, select the Forest+SSL+...ot+CA.cer.crt file and select Done.

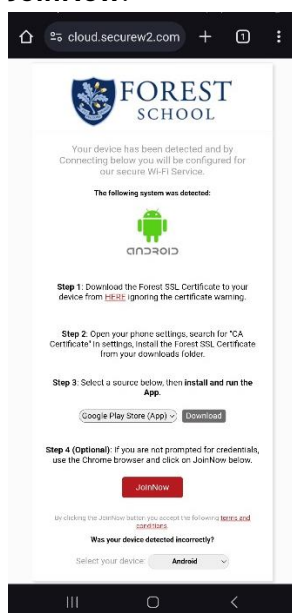

14. Go back to Step 3 on the “Forest School Wireless Onboarding Guide” website then select **Download** on Step 3.

15. Click Install.

16. Go back to Step 4 on the “**Forest School Wireless Onboarding Guide**” website. Click **JoinNow**.

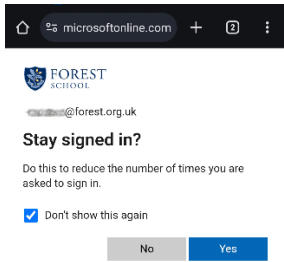

17. A screen will pop up asking you to enter your username. This is your Forest School email account that you use to log in to your school account. Tap **Next**.

The screenshot shows a mobile browser interface with the address bar displaying 'microsoftonline.com'. The page header features the 'FOREST SCHOOL' logo. Below the logo, the text 'Sign in' is displayed. A text input field contains the email address 'someone@forest.org.uk'. Below the input field, there is a link that says 'Can't access your account?'. A blue button labeled 'Next' is positioned below the input field. At the bottom of the main content area, there is a box with a magnifying glass icon and the text 'Sign-in options'. The footer contains links for 'Terms of use' and 'Privacy & cookies', followed by three dots. The bottom navigation bar shows three icons: a hamburger menu, a square, and a back arrow.

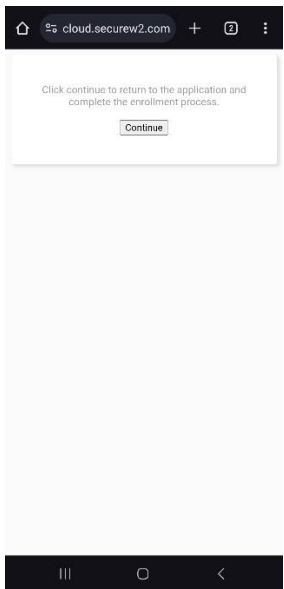

18. Enter your password on the next screen. Tap **Sign In**.

The screenshot shows the same mobile browser interface as the previous one, but now the text input field is labeled 'Enter password' and contains a masked password. Below the input field, there is a link that says 'Forgotten my password'. A blue button labeled 'Sign in' is positioned below the input field. The footer and bottom navigation bar are identical to the previous screenshot.

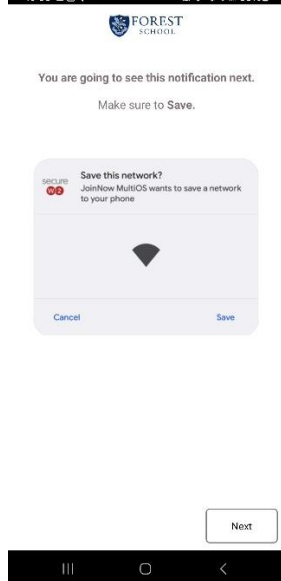

19. Select “**Don’t show this again**” and select **Yes**.

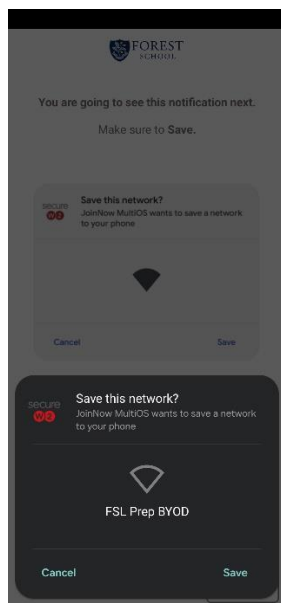

20. Select **Continue**.

21. Select **Next**.

22. Select **Save**.

23. Congratulations, you have connected your Android phone to the school network. You can now use the internet and online learning on your Android phone.
